[Learn more about this recall](#)

Description: Some 2021-2023 MY Dodge Durango vehicles were built with rear spoilers that may be over-flush to the roof, allowing contact to the roof when cycling the liftgate. An over-flush rear spoiler may become damaged when cycling the liftgate which may result in the spoiler becoming partially detached from the vehicle.

Rear spoilers that become partially detached may separate from the vehicle while driving, potentially creating a road hazard to operators and occupants of other vehicles, and can cause such vehicles to crash without prior warning.

Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to inspect and, if necessary, replace the rear spoiler.

FCA US LLC

Manufacturer Safety recall issued

- NHTSA #24V-436
- Recall #66B 2021-2022 WD, 2022 DF, DJ & DT, 2022-2023 MP, VF &
- Status: Remedy Available

Click here for a copy of the owner letter for this Recall or call 1- 800-853-1403 if you have any questions or need additional information on this recall.

[Learn more about this recall](#)

Description: Federal Motor Vehicle Safety Standard (FMVSS) No. 571.111 S6.2.6 requires that "The rear visibility system default to the rearview image being visible and meet the requirements of FMVSS No. 571.111 S6.2.1 (field of view) and S6.2.2 (image size) at the beginning of each backing event, regardless of any modifications to the field of view that the driver had previously selected..." and apply to other markets via direct reference to FMVSS or are implied via free trade agreements. Vehicles with suspect radio software may not display the rearview image during a backing event under certain conditions

The vehicle operator will notice that the rearview image is not displayed if attempting to reference the image while backing. If this warning is not heeded, backing without verifying it is safe to do so could lead to an increased risk of injury to people

Remedy: FCA US will conduct a voluntary safety recall on all affected vehicles to update the radio software. The vehicle population will be managed between 2 FCA US campaign ID numbers, 66B and 79B. All customers known to have a software level which includes the remedy will be assigned to 79B. The balance of customers will be assigned to 66B.

MILEAGE INCONSISTENCY

★ 4.5 / 5.0 65 Verified Reviews

♥ 4 Customer Favorites

The mileage reported here conflicts with this vehicle's odometer history. Ask a mechanic or the seller to confirm the actual mileage - this entry may just be a clerical error.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Mileage Inconsistency

If an odometer reading is less than a previous reading but CARFAX is uncertain whether the discrepancy is a rollback or a clerical error, then CARFAX calls it a "Mileage Inconsistency". In this case, you should verify the mileage with your dealer or a qualified mechanic.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
